

POP SAFES

Also available with coin slot.

Banks and financial institutions deal in cash on a daily basis. Transactions happen by the minute, with large amounts going in and out. The security for this cash comes in the form of drawers of cash counters, cupboards, or tables. Resistance offered by these measures isn't of the highest grade, rendering them vulnerable to even a small time thief with common tools.

To satisfy such needs, especially in low risk areas, the Godrej POP Safes can be installed for easy access.

The Godrej POP Safe has a multi-bend body which is fully welded and is far superior to riveted joints. This ensures greater security against attempts to break open the safe at any point and also provides adequate resistance to the impact of hammer blows. Durability and reliability is what you get for the security of your cash, when you choose the Godrej POP Safes.

The Key features of Godrej POP Safes Model

- Fully welded multi-bend body ensures greater security
- A heavy plate door hinged on strong pivots in a solid-steel bearing block provides adequate resistance to impact of hammer
- 3-shooting bolts behind a rebate while the rear edge of the door acts like a continuous vertical bolt
- The lock and vital parts of the bolt work are protected with a drill-resistant armour plate
- A 7- step pretreatment process imparts corrosion and scratch resistance
- A locker with a flap door and lock provided to facilitate the storage of items which need additional security
- Godrej high-precision dual control 6-lever lock operated by two keys
- A 3-wheel numerical combination lock can be provided if requested at the time of delivery
- Popular Safe also available with a coin slot measuring 12x80 mm and baffle tray inside
- Available in Dual Tone powder coated, Dark Grey/ Light Grey colour finish
- Available with integration of alarm system
